

BRITANNIA MARINE

Cartridge Operated AFFF foam extinguisher

The Aqueous Film Forming Foam (AFFF) additive is a blend of perfluorinated and hydrocarbon surfactants. It enables the formation of an aqueous film capable of spreading on the surface of burning fuels, which prevents vapour production and seals the surface from oxygen.

AFFF will extinguish class A (carbonaceous) fires and class B (flammable liquid) fires.

key points

- Approved and certified to BS EN3
- Kitemarked product
- Wheel marked in accordance with the MED
- CE marked in accordance with the PED
- Colour coded headcap
- Manufactured in Great Britain
- Excellent fire ratings
- Large neck ring enables servicing and refilling to be conducted with ease
- Reliability

Technical Specification

Model	Capacity (litres)	Fire rating	Full Weight (Kgs)	Temp Range	Operating pressure (Bar) @ 20°C	Discharge Duration (Secs)	Discharge Range (M)	Diameter (mm)	Height (mm)
BAF9MED	9	13A/183B	15.7	+5°C to +60°C	12	49	4	190	570
