

Stored Pressure AFFF foam extinguisher

The Aqueous Film Forming Foam (AFFF) additive is a blend of perfluorinated and hydrocarbon surfactants. It enables the formation of an aqueous film capable of spreading on the surface of burning fuels, which prevents vapour production and seals the surface from oxygen.

This model has passed the requirements of EN3 for the suitability of being used on live electrical equipment.

AFFF will extinguish class A (carbonaceous) fires and class B (flammable liquid) fires.

key points

- Manufactured in EU
- Approved and certified to EN3
- CE marked in accordance with the PED
- Wheel marked in accordance with the MED
- Excellent fire ratings
- Reliability

Technical Specification

Model	Capacity (litres)	Fire rating	Full Weight (Kgs)	Temp Range	Operating pressure (Bar) @ 20°C	Discharge Duration (Secs)	Discharge Range (M)	Diameter (mm)	Height (mm)
XFS2	2	5A/70B	2.7	0°C to +60°C	11	21	4	108	378
