About Us

Britannia Fire Ltd have been proudly manufacturing quality portable and mobile fire extinguishers since 1970 in Ashwellthorpe, Norfolk, UK to the highest standards, including BSI Kitemark, and provide extinguishers for all types of fire risks; protecting offices to high-risk oil rigs across the world.

Owner and Founder Roger Carr is continually inventing and innovating our products to ensure long-life performance, save lives and the environment whilst still providing the best firefighting protection to our new and existing clients.

With over 50 years' experience, you can rely on us to make fire safety simple, easy and affordable.

Certified Safety

Our extinguishers are manufactured and approved to the highest industry standards and certification including BSI Kitemark, EN3, EN1866, UKCA/CE, PED, and MED.

Giving you confidence that you are purchasing quality fire extinguishers.

Britannia Portable

The Britannia Portable fire extinguisher range are available in cartridge operated and stored pressure models. All extinguisher head caps are colour-coded for 360° easy identification and application in the event of an emergency.

Our powder cartridge operating extinguisher are also fitted with a patented balance valve to ensure maximum discharge of contents on application.

When required for use in extreme environments, such as shipping, oil refinery's and chemical industries, our Britannia Portable fire extinguishers can be externally zinc coated to protect against corrosion.

Model	Type	Capacity	Fire Class	Temperature Range	Weight (kg)	Fire Ratings
BW9*	Water	9ltr	A	+5°C to + 60°C	15.5	21A
BT9*	Foam	9ltr	A, B & Electrical	+5°C to + 60°C	15.5	21A/183B
BAS2	Powder	2kg	A, B, C & Electrical	-20°C to + 60°C	3.1	13A/70B
BA9	Powder	9kg	A, B, C & Electrical	-20°C to + 60°C	11.3	34A/233B
BA12	Powder	12kg	A, B, C & Electrical	-20°C to + 60°C	18.7	43A/233B
BM9	Monnex Powder	9kg	B, C & Electrical	-20°C to + 60°C	15.7	233B
BS9	Powder	9kg	B, C & Electrical	-20°C to + 60°C	15.4	233B
BS12	Powder	12kg	B, C & Electrical	-20°C to + 60°C	18.4	233B

BC5	Co2	5kg	B & Electrical	-20°C to + 60°C	12.8	70B
BFS6	F-Class	6ltr	F	+5°C to + 60°C	11.7	75F

*MOQ requirement

Norfolk Wheeled

The Norfolk Wheeled fire extinguisher range are available with external Co2 side cylinders.

With an upgrade in 2010, all hoses are connected through the brass head block on the large neck ring, making it quicker and easier for servicing and refilling, particularly in offshore environments.

All extinguishers in this range are manufactured and approved to BS1866 and are designed to be deployed safely by a single operator.

When required for use in extreme environments, such as shipping, oil refinery's and chemical industries, our Norfolk Wheeled extinguishers can be externally zinc coated to protect against corrosion.

Model	Type	Capacity	Fire Class	Temperature Range	Weight (kg)	Fire Ratings
NRAF45	Foam	45ltr	A & B	+5°C to + 60°C	88	IIB
NRAF135	Foam	135ltr	A & B	+5°C to + 60°C	224	IVB
NRA50	Powder	50kg	A, B, C & Electrical	-20°C to + 60°C	94	IIB
NWM50	Monnex Powder	50kg	B, C & Electrical	-20°C to + 60°C	94	IVB
NWC20	Co2	20kg	B & Electrical	-20°C to + 60°C	79	89B
